

SAFE CONVEYOR, INC.

Phone: (508) 689-7849 Email: sales@safeconveyor.com

Safe Conveyor Inc., would like to thank you for the opportunity to introduce our line of technically innovative modular conveyor systems.

As a leader in the manufacturing of safe portable modular conveyors, our goal is to provide conveyors that are designed to be easy to operate and install. With over 25 years of experience, Safe Conveyor is positioned to offer our clients the best of the “next generation” of high-performance and low energy consumption modular conveyor systems that are the safest on the market.

Our universal frame can be a single section conveyor or you can add other sections to create numerous configurations to meet your application.

By purchasing a Safe Conveyor you will receive the following benefits:

- **Quick and Easy to Order**
- **Simple to operate with variable speed “plug & play” drive**
- **Large selections from 6” – 24” wide and lengths as small as 18 inches or up 40 feet long with one motor**
- **Make turns or inclines**
- **Create multi-level systems**

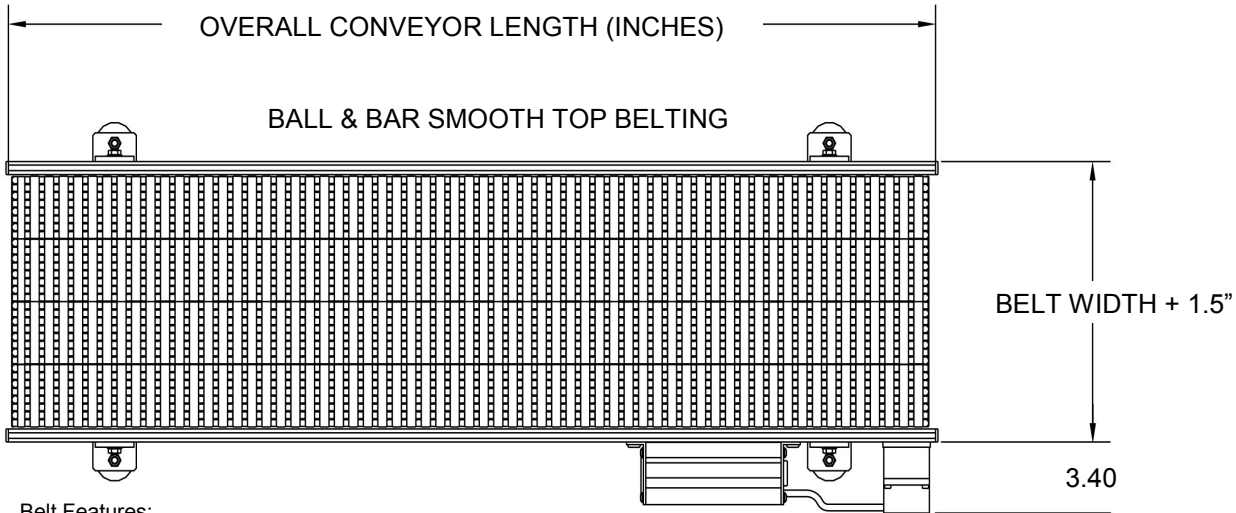

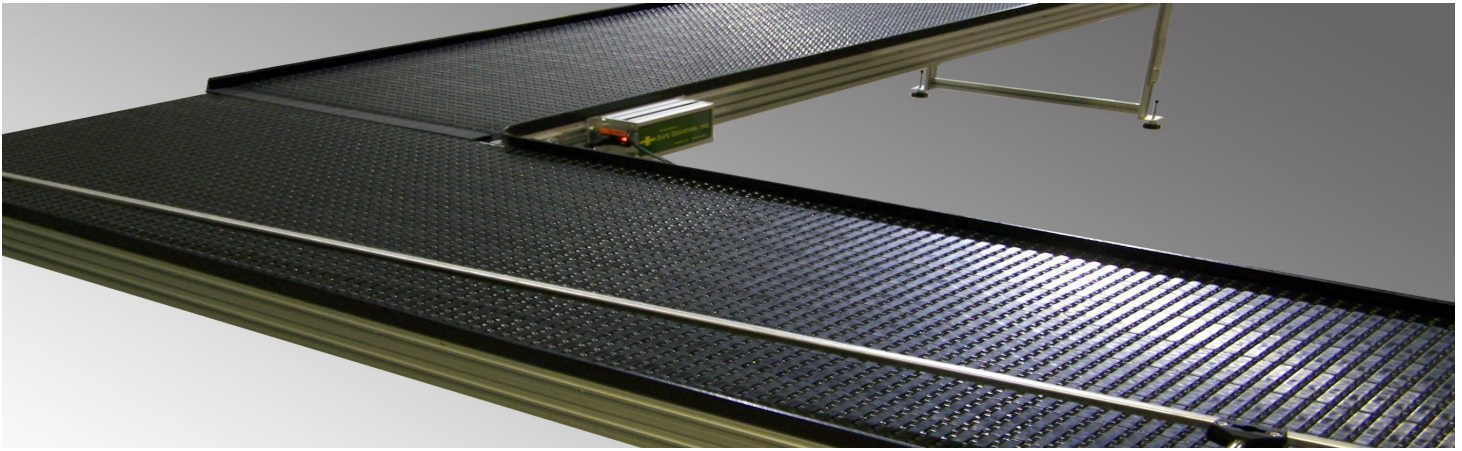

If you have any questions or wish to discuss your application in more detail, please don't hesitate to contact us at: (508) 689-7849, or you may also email at sales@safeconveyor.com.

Sincerely,

Chris Caron
Vice President
